12:00 noon

Lakeside Pavilion

307 Buena Vista, Marble Falls, TX

SUBJECT: Ronn Motors, Inc.

Ronn Motors, Inc. has announced that it has consummated a deal with the Economic Development Corporation in the City of Marble Falls, Texas to build a new manufacturing headquarters. The headquarters will feature a showroom, executive offices and an assembly plant outfitted with state-of-the-art equipment.

The renovation of a 76,500 square foot existing building on 7.5 acres will begin immediately. The facility will have over 10,000 square feet of offices and show rooms and will be located within the City of Marble Falls. Ronn Motors, Inc. will be creating and bringing a significant number of new, skilled labor job opportunities to the City of Marble Falls. The new facility will enable the company to expand production of the Scorpion HX sports car, and to begin development of its second generation automobile, a hydrogen, electric-plug-in hybrid, to expand research & development and to gear up for production and manufacturing of other related, "green" products.

Ronn Maxwell, CEO of Ronn Motors, Inc., commented, "We are very excited about our new headquarters and the extent of support, enthusiasm and financial consideration we have received from the City of Marble Falls, the Marble Falls Economic Development Corporation and the State of Texas. Moving to our new facility will allow us to drive forward more quickly, helping to create and motivate change in the world through the delivery of sustainable, eco-friendly, alternative energy/power systems, and automobiles."

Headquartered in Marble Falls, Texas, Ronn Motors, Inc. is a design and manufacturing company focused on the leading edge engineering of environmentally friendly, finely built premium automobiles and "green," eco-responsible technology. These technology systems include Hydrogen Fuel, Fuel Cells, and Plug-in Electrics and will be incorporated into their automobiles to be made available for aftermarket applications. Ronn Motors, Inc. products, coupled with RMC's core values of a strong sense of ethics, environmental sensitivity and premium quality, position the company as one of the new leaders in an automotive industry transitioning toward fuel efficiency.
